

6 K – detailed description

Updated 26.06.2020

For distance references (in km), see the route map at blefjellsbeste.com.

Start – Fiskeløysen, 0 – 2,2 km: Good path, some marsh, slightly hilly terrain, easy to run.

Fiskeløysen – Butjønnseter parking, 2,2 – 3,0 km: Path and road along the lake Fiskeløysen. A narrow bridge when passing the dam.

Butjønnseter parking – Bestebu, 3,0 – 6,2 km: Pay attention when passing the parking area at Butjønnseter. If many cars, it may be more difficult to see the ribbons.

After a small ascent you arrive at Butjønnseter. Here the route turns 90 degrees to the left, follow the arrows marked "6". The route then follows a T-marked path for approx. 800 m. You encounter a tractor road and take this to the left (east). After 200 m you will see a turnpike. Then take right (south) onto a broad dirt road. Follow it for 1,7 km to the parking lot of Blefjells Beste. Take the path uphill to the left, now only 200 m remains.

CONGRATULATIONS, YOU ARE A FINISHER!
